

### A Notice regarding Beginning Band Books

Since we have started using our instruments in class, it is imperative that students acquire their own band book. These are designed as a workbook that students keep beyond their first year in band. Books are available for purchase from Nick Rail or California Keyboards -- not from the school. The book we use is called Essential Elements for Band: Book 1 and are between 10-18 dollars depending on the instrument your student plays. I have a limited supply used books that may be borrowed for the school year, but they are not in the best condition. They are available on a first-come first serve basis.
